

Standard Pitch Maintenance Prices 2024

The prices below are based on one full-size football pitch.

More information on any work can be found on our website or get in contact with us by phone or email. All prices are subject to VAT.

Verti-Draining - £375 (delivery charge of £1.50 per mile charge applies)

Aeration of the whole pitch with 24mm tines to depths up to 12" unless other requirements are specified.

Verti-Quake - £425

A variation on aeration using rotating steel blades to cut through the soil, creating a wave action which shatters compaction to a depth of up to 10". (This is an application which is subject to site inspection)

Slitting - £200

Quick aeration with minimal disruption to a depth of 8".

Fertiliser Application - £300 (Various options available for fertiliser quality and longevity can be quoted. For the application only and does not include the price for the fertiliser. We can supply the fertiliser and carry out soil and foliar analysis to determine your fertiliser requirement)
Price for application at 35g/m² of time of year specific, controlled release 10-week longevity sports field grade fertiliser.

Weed Spraying - £275 (This is the application price only.)

Cost for chemicals will be determined by the selective weed killer required)

Fully licensed and insured spray application of high quality, amenity-specific selective weed killer.

Overseeding - £275

Dimple seeding in two directions, with extra passes where required (in high-use areas). Seed not included but happy to discuss quote options (£300-£1000 depending on rate and seed quality, no VAT).

Top Dressing Application + Brushing In - £475 (Price does not include sand which will be charged separately based on volume required and spot price on the day).

Scarification and harrowing - £POA (Price is entirely dependent on surface condition.)

Various options are available to help remove thatch and poor grasses, or completely remove the top surface and start again.

Drainage and porous pipe installation - £120 per linear meter

Full primary drainage systems planned and installed. The price is per linear meter.

Sand Banding - £POA (Subject to ground trials soil porosity)

Various options are available for secondary drainage which helps move water into drains.

Big Match Preparation - £450

Double cut to create a chequerboard stripe pattern and high-quality marking out with our professional equipment. High-quality look to your pitch for one-off big matches.

Full Aeration, Fertiliser and Weed Control Programs – from £200 per month (Based on a 12-month contract)

Price depending on quantity and quality of operation, spreads the cost evenly over the year.

Full Maintenance Programs – from £420 per month (Based on a 12-month contract)

We can deliver all aspects of pitch maintenance including cutting, marking, aeration, fertiliser, weed control and end-of-season renovations. Programs will be tailored to requirements and budget.

Fence Repair - £POA

Based upon site inspection and quote for individually.

Kickerboard installation - £ 20 per linear meter
